

**Fleurieu Leaders Youth Program  
20th-22nd March 2020**

# Aspiration

In July 2018, an idea emerged through conversation amongst five leaders of the Fleurieu Peninsula, South Australia

This conversation spoke of a desire to contribute, and a deep value for allowing young people to explore their personal potential, develop strong friendships, and to connect with their community.

It was time to FLYP things around, through the Fleurieu Leaders Youth Program.

# Innovation

FLYP will take 20 participants, aged 13-16, on a journey of experiential learning and reflective practice, with experienced role models and mentors, over three days and two nights. A range of interactive events may include outdoor activities, motivational workshops and live music.

# Mission

FLYP will pilot in late 2020, with the aim to allow young people to grow into resilient ambassadors of their community.

# Values and Principles

**Highlight** the value of teamwork

**Exploring** personal potential

**Learn** responsibility and accountability

**Think** beyond yourself (value of community)

**Experience** activities and situations that provide opportunity to frame and develop their leadership philosophies.

To **inspire** students to become ambassadors for their community.

# Desired outcomes

Youth's will be challenged in workshops and activities to think outside the box. They will need to identify their own interests, strengths and challenges, and recognise the need to collaborate and work together with other young people to achieve their desired outcomes.

The camp will highlight and promote young people's strengths and where they are actively thriving amongst their peers. Importance will be placed on recognising the contribution of the individual and how this can compliment the contributions of others.

Awareness and recognition of the positive benefits of music, physical activity, health and wellbeing will be observed and demonstrated.

Participants will be invited to share their experiences participating in the camp activities, providing opportunities to break down stereotypes and acknowledge forms of discrimination that they may feel they and others are subject to.

Participants embracing the resilience and ideas that different individuals and groups have when it comes to building a brighter future together.

Introduction of mentoring and local community mentors.

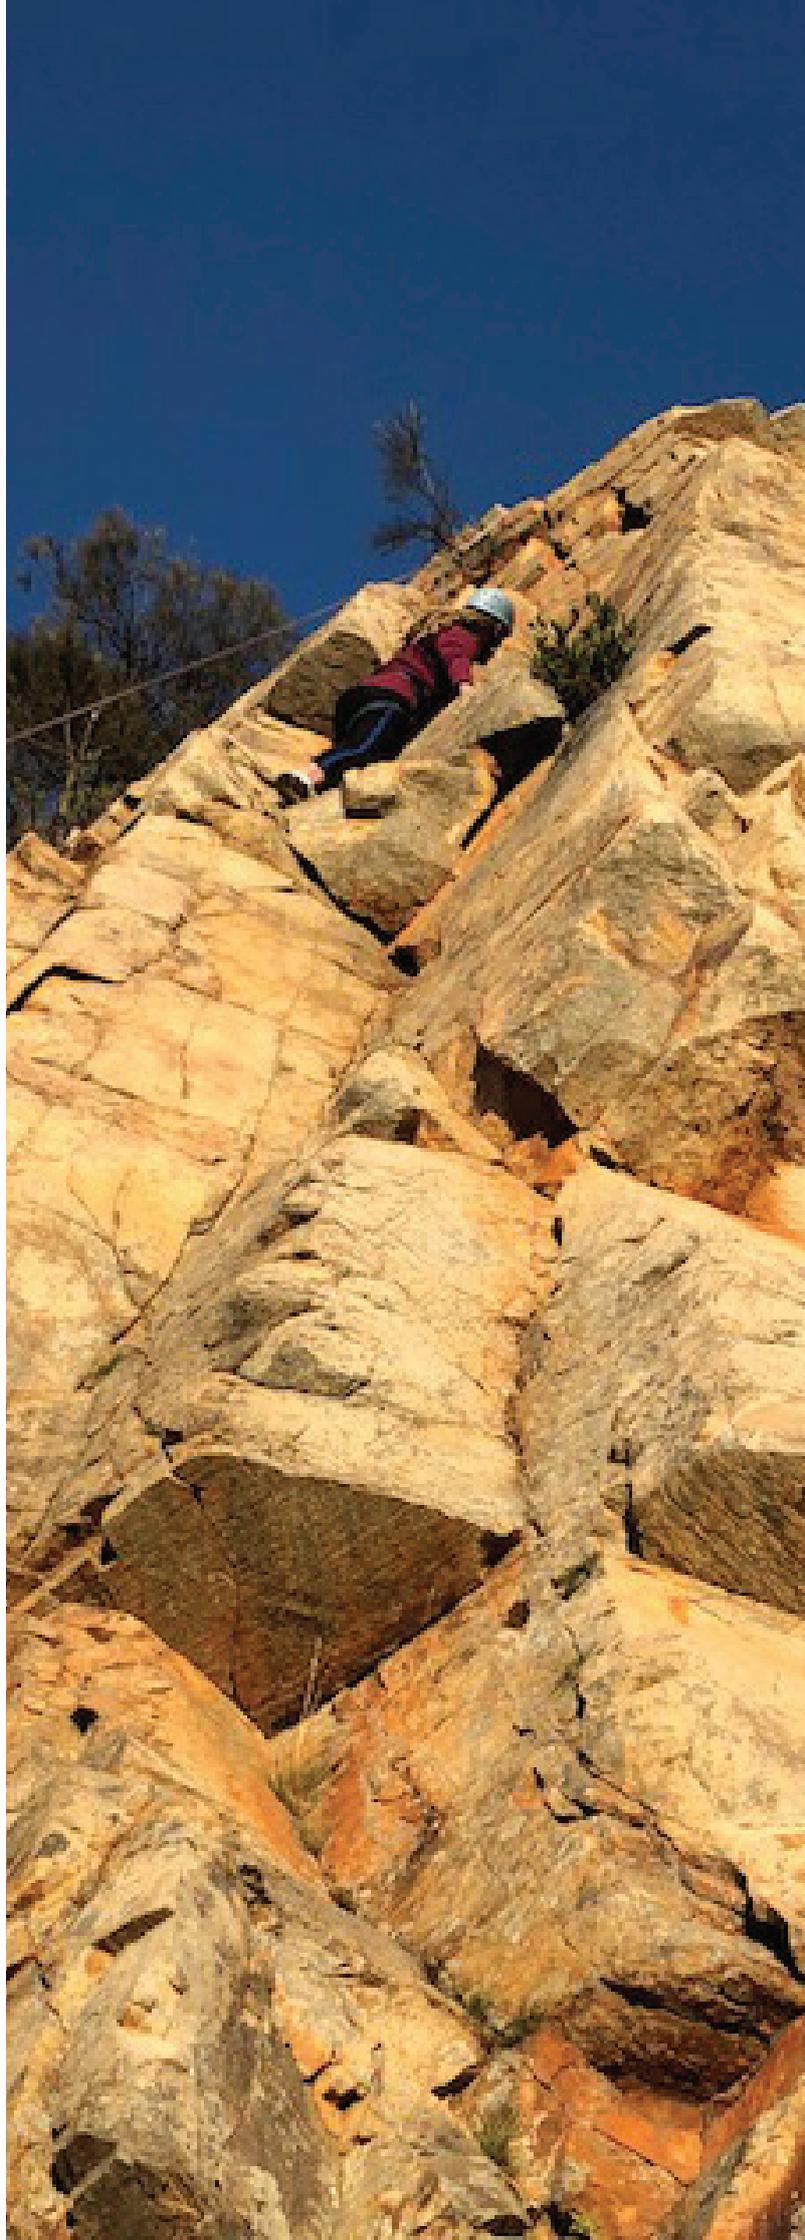

Participants will be encouraged to embrace a future of their own and develop personal resilience and leadership.

## Evaluating and Measuring Feedback

An evaluation form will be given to young people to provide feedback. This will help measure the success of their feelings of support and connectedness.

A Community group will be established so young people can continue to be mentored, communicate and seek dynamic avenues to remain active in their community.

Young people may be invited to share their experiences with facilitators, sponsors and other community associations.
